JACK ETZION

Senior Product Manager | AI & Healthcare SaaS Leader

7832 Red Mahogany Rd. Boynton Beach - FL | phone: 612.991.3605
Email: Jack@etzion.us | LinkedIn profile: https://www.linkedin.com/in/jacketzion/

PROFESSIONAL SUMMARY

Senior Product Manager with 5+ years of digital product leadership and a deep background in technical architecture, SaaS, and AI-driven clinical solutions. Proven track record of taking complex healthcare systems (EMRs, diagnostic AI) from concept to release through cross-functional leadership and business acumen.

EXPERIENCE

Montera Health DBA Forta Health

Product Manager | Jun 2021 – Present

Spearheaded end-to-end product discovery, roadmap definition, and execution for a custom EMR system and AI workflow tools serving clinicians and families in autism care.

Collaborated with engineering, clinical teams, and UX designers in Agile sprints to ship feature updates on time, reducing administrative charting time by 2x and boosting platform active users by over 20%.

Translated complex clinical workflows into actionable epics, user stories, and Jira tickets, integrating AI development tools to streamline engineering workflows and reduce cycle times by over 50%.

Descena

Product Manager | Jan 2020 – May 2021

AI Clinical Systems: Defined strategy and requirements for an AI sepsis alert platform, delivering real-time physician notifications and improving early intervention response times by 10%.

Lab Operations Platform: Managed end-to-end development of a DNA lab management system (LIMS), ensuring HIPAA compliance and reducing sample processing bottlenecks by 25%.

Cross-Functional Execution: Led customer discovery and Agile sprints across engineering pods, clinical stakeholders, and external vendors to ship scalable features on schedule.

Online Business Systems

Senior Director, Client Relationships | Jul 2019 – Apr 2020

Develop deep strategic relationships with enterprise prospects and partners at C-level executives to establish Online as a key Digital Transformation, IoT, and Cybersecurity. Manage the sales process from lead generation to negotiation, execution, project management, and account management.

Nerdery

Strategic Account Executive | Dec 2014 - Jul 2019

Led technical feasibility studies and product discovery initiatives for Fortune 500 partners (Honeywell, Medtronic, Verizon, 3M, BlueCross BlueShield), translating broad business challenges into concrete IoT software specifications, technical requirements, and delivery roadmaps.

Functioned as the product bridge between enterprise client leadership and internal engineering pods, applying consultative solution-discovery frameworks to align technical architecture with long-term partner business strategies.

Qumu Corporation (formerly Rimage Corporation)

Senior System Architect & National Account Manager | Jul 2005 - Jul 2014

Headset client discovery and architectural design across Tier-1 enterprise accounts, translating operational bottlenecks into tailored digital workflow solutions and multi-year product roadmaps.

Fujifilm

VP Product Development, VP Technical Marketing | Apr 1997 - Oct 2005

Founded and directed the Digital Technology Advisory Group to capture client feedback and drive feature prioritization across digital imaging software, workflow servers, and web applications. Led cross-functional engineering and design teams from concept to commercial execution.

EDUCATION

Pierce College, CA Cal State LA, CA and Tel-Aviv University, Israel Computer Science and Electronics

MARKET EXPERTISE

Healthcare, Software, AI, Digital Transformation, Internet of Things, Imaging, Industrial Manufacturing, and SaaS; experience in startup and Fortune 500 companies.

EXPERTISE & SKILLS

Product Management & Strategy: Product Discovery, Roadmapping, Agile/Scrum, User Story Mapping, Feature Prioritization, Wireframing, Go-to-Market (GTM) Strategy, Regulatory Compliance.

Tools & Analytics: Figma, Jira, Confluence, Product Analytics (Mixpanel/Amplitude/Google Analytics), SQL, Python, N8N, JS.

Domain Expertise: Healthcare Technology (EMR, Clinical AI), SaaS, IoT, Digital Transformation.
