Experience

Forta
Product Manager
January 2022 - Present (4 years 10 months)
Florida, United States

As a dedicated and results-driven Product Manager, I specialize in leading engineering projects from concept to completion. I strongly focus on collaboration and work closely with cross-functional teams and key stakeholders to ensure the successful, on-time, and within-budget development of a custom EMR system and AI solution designed to support our clinicians and families of autistic kids.

My expertise spans strategic planning, product ideation, requirements grooming, UX design, and team management, ensuring seamless execution. I excel at transforming complex requirements into actionable roadmaps while managing risks and driving the delivery of high-quality products that meet both business goals and user needs.

I thrive in fast-paced environments, leveraging my strong leadership and communication skills to keep teams aligned, motivated, and focused. Passionate about solving challenges and delivering impactful solutions, I am committed to continuous learning and excellence in every project I manage.

Ateed Tech
Founder & CEO
May 2019 - Present (7 years 6 months)
Florida, United States

As the Founder and CEO of Ateed Tech, I lead a team dedicated to building innovative, end-to-end digital solutions tailored to the unique needs of our clients. From web and mobile applications to enterprise systems, cloud infrastructure, and AI-driven technologies, Ateed Tech empowers organizations to thrive in an increasingly digital world. Our mission is to be a strategic technology partner that drives lasting impact and competitive advantage for every business we serve.

Dascena (Acquired, now DBA CirrusDx)
Product Manager
December 2020 - January 2022 (1 year 2 months)
Florida, United States

Responsible for planning, overseeing, and managing the development of a comprehensive end-to-end DNA lab management solution and advanced AI solutions designed to alert physicians of sepsis in hospital settings. Collaborating closely with internal teams, external vendors, and clients to ensure the successful delivery of a product that meets requirements and is delivered on time.

Online Business Systems
Senior Director, Client Relationships
August 2019 - April 2020 (9 months)
USA

Identify, develop, and maintain digital transformation and cybersecurity opportunities. Helping enterprise clients design and implement secure solutions to support business needs. Primary focus on acquiring new IoT clients and building a network of digital transformation partners.

Nerdery
Strategic Account Executive
December 2014 - July 2019 (4 years 8 months)
Greater Minneapolis-St. Paul Area

Manage multi-dimensional client engagements from new account acquisition to long-term account retention. Successfully sold and delivered multi-million-dollar professional services annually, achieving consistent year-over-year growth. Focus on expanding Digital Transformation offerings, including Internet of Things (IoT) and end-to-end solutions.
To generate new business opportunities, focus on building and nurturing relationships with C-suite executives and VPs at mid-sized to Fortune 500

companies. Leverage a strong background in sales, technical expertise, and a solutions-selling approach as key drivers of success.

Rimage Corporation
Business Development Manager
July 2005 - July 2014 (9 years 1 month)

Established and managed a channel relationship with tier-one retailers. Also, I was responsible for defining new products or seeking third-party products that expand our product offering and address unique customer needs. Responsible for New Business Development, Product Management, and National Accounts Sales. Research, initiate, and manage business relationships in the Americas and overseas (Europe and Asia).

Initiated and led business relationships with national accounts like Walmart, Sam's Club, Costco, Best Buy, etc., to position Rimage as a leader in this market segment. Responsible for over one hundred and fifty million dollars in net new business.

FUJIFILM Holdings America Corporation
VP Product Development & Technical Marketing
1997 - 2005 (8 years)

DESCRIPTION:

Established and led a team of product managers and customer facing individuals that became the trusted advisor to our key customers. Managed all communications and initiatives with internal departments and third-parties to ensure we met our objectives.

DUTIES AND ACHIEVEMENTS:

• Identify opportunities for campaigns, services, and distribution channels that will lead to an increase in sales.
• Led development efforts for all software and hardware products, including kiosks interface, workflow servers, consumer software and custom websites. As a results, Fujifilm became a kiosk provider leader in the imaging industry.
• Using knowledge of the market and competitors, identify and develop the company's unique selling propositions and differentiators.
• Communicate with other executive heads on the implementation of the company's strategic and operational plans.

• Establish a strong consultative working relationship with strategic customers to ensure customer satisfaction while meeting company’s objectives. As a result, increased U. S. market share from 40% to 75%.
